Our Values

CERT

Customer Service Orientation,
Constant Pursuit of **Excellence**
and
Culture of **Respect and Trust**

Who We Are

FlyWheel Infotech was founded by seasoned professionals boasting 30 years of collective industry expertise, having worked across diverse domains and catered to Fortune 500 clients. As your comprehensive technology partner, we pledge to deliver excellence across the entirety of software development, from initial discovery to success launch with continued support.

What We Do

We Turn Your Product Ideas into Reality. Come leverage our Technical Expertise at a reasonable cost by hiring one of our MicroTeams

MicroTeam

We provide a Dedicated Team proficient in guiding your product journey from Initial Ideation to achieving Product Success, leveraging a rapid MVP strategy

Staff Augmentation

We possess skilled resources proficient in niche skill sets, and we can deploy them to your project within a couple of weeks, tailored to your specific requirements.

Use Case

We recently collaborated with a client in the life science industry who possessed decades of industry experience and expertise in their domain but lacked the technical expertise to see their vision turn into reality. They required experienced professionals for their product development but encountered challenges in assembling their own team. Serving as their extended technology partner, we assisted in establishing a team and took ownership of the product development process.

Why Choose Us

- Decades of Product Development Experience
- Swift Go-to-Market Strategy
- Transparent Communications
- Effective mix of On and Off Shore talent
- Our relentless 'can-do' optimism fuels our success

Our Expertise

- Fullstack Development
- Generative AI
- Mobile App Development
- DevOps Engineering
- QA Automation - Web, and Mobile
- Security Testing
